## Nepal

Manaslu Circuit: The Ultimate  
Off-the-beaten-path Trek  
In Nepal  
May 1 - 20, 2020

\$1950

Quietly tucked away in the center of Nepal along the Tibetan border, between two of Nepal's more popular national parks is the protected Manaslu Conservation Area. Despite being situated above Nepal's most historic city, Gorkha (origins of Nepal's first king) and being home to its namesake Himalayan giant, Manaslu, this region is only just beginning to gain trekking popularity.

### GRADE/FITNESS

The significant altitude range involved in this trek requires good fitness. Some days include long steep ascents and descents, through remote and less tourist serviced sections. Prior trekking experience is recommended to join this trip.
